# A VIBRANT HUB READY FOR RETAIL

1201-1215 GOOD HOPE ROAD SE & 1909 MLK JR AVE SE | WASHINGTON, DC

The Menkiti Group has partnered with Washington, DC-based technology company Enlightened, Inc. to create a true gateway at the most prominent intersection in Southeast DC. Together, the two 100% minority-owned District-based companies are committed to delivering a project that engages local residents in pathways to opportunity in this rapidly evolving market.

## 20,000 SF FOR TECH

Enlightened, Inc. is an award-winning Information Technology (IT) and Consulting firm that delivers end-to-end IT solutions with a focus on Cybersecurity, Software Development, and Integration solutions.

In an unprecedented move for DC's tech sector, Enlightened will relocate company HQ from the downtown CBD to MLK Gateway. The company will also operate a technology incubator and jobs training center.

# MLK GATEWAY

## PROJECT OVERVIEW

The MLK Gateway in Historic Anacostia has been planned as an epicenter for business and commerce. It will be one of the first projects to deliver in the rapidly progressing Southeast quadrant of the District.

Designed for a mix of retail and office space to best serve the needs of the community, the project features the restoration of 14,600 square feet of historic ground floor retail, as well as 20,000 square feet of new office space.

Within immediate proximity of the MLK Gateway are valuable assets that make a thriving commercial corridor: well-established residential neighborhoods with a mix of housing types, historic landmarks, cultural institutions, government agencies, and dynamic performing and visual arts venues.

The retail components offer an amazing opportunity to locate to the center of Main and Main.

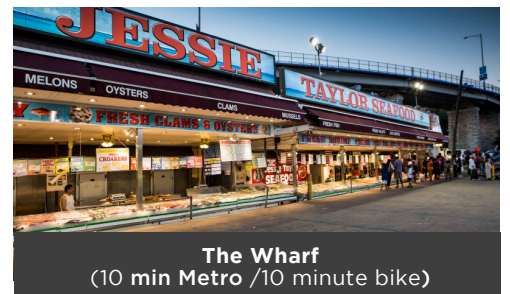

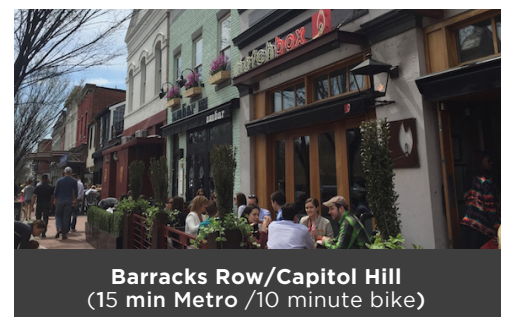

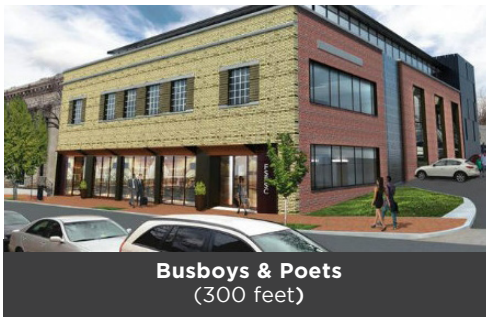

## HIGHLY VISIBLE, WALKABLE URBAN RETAIL
